Course Description

This course is an introduction to economic principles and concepts, designed to fulfill the objectives of the college social science requirement and to prepare students for additional work in economics, business, and accounting. The course deals with such topics as supply and demand, markets, money, the determination of national income, employment and the price level, and international trade. The government's role in the economy is examined throughout.

Required Materials

- *Principles of Macroeconomics* 5th edition by Coppock and Mateer. Any somewhat recent edition should be sufficient though.

The bookstore should have pre-registered you for access to the online version of the book, as we get a group discount. You can opt-out of this if you wish to secure a different version or a paper copy.

This pre-registration comes with online homework. I will NOT use this homework for a grade, though the problems can be used for extra practice.

- Access to news articles from the WSJ, NYT, and The Economist. Subscriptions to these are provided through the Van Wylen library.
- Access to the course webpage on Moodle.

Prerequisites/Corequisites

There are no prerequisites or corequisites for this course.

Course Objectives

This course contributes to two learning outcomes laid out in the [Anchor Plan](#):

1. Examine fundamental or emerging questions about humanity, the natural world, or God by seeking answers through different modes of inquiry
2. Analyze evidence or data to solve problems, reach informed conclusions or make sound judgments

For this course, the above objectives can be expressed more specifically:

1. Obtain fluency in analyzing and interpreting economic data
2. Apply models to think about growth and business cycles
3. Critically think about current events, economic news, and government policy

Course Structure

Assessments

Final grades will be computed in the following manner:

- 10% - Homework
- 10% - Professionalism
- 20% - Midterm Exam 1
- 25% - Midterm Exam 2
- 35% - Final Exam

I expect to assign letter grades according to the table below. Please note that I will not round grades up at the end of the semester.

Grade	Minimum	Grade	Minimum
A	93	C	73
A-	90	C-	70
B+	87	D+	67
B	83	D	63
B-	80	D-	60
C+	77	F	< 60

Homework

I will assign homework assignments via Moodle. These will be assignments that I have built and will often include data exercises. You will upload your answers to a dropbox in Moodle. Due dates will typically be on Fridays. I do not accept late homework unless you have a college-approved excuse, so make sure you submit your homework on time. Homework will be graded based on completion. I plan on going over questions that students found difficult at the beginning of class the following Monday.

Professionalism

Professional engagement is crucial for the workplace. The Wall Street Journal recently ran an article titled “[A New Lost Generation: Why Gen Z is Unprepared for the Workplace](#)” arguing that “young employees are struggling to fit into [workplace] organizations.”

While education is primarily about developing you into a well-rounded thinker, we also want you to succeed in the workplace after college. As such, I will award points for your professional conduct in three areas:

1. **Preparation:** Review relevant material before class and complete assignments on time. If you are going to be gone for a class period, make sure you catch-up for the next period.
2. **Engagement:** Be a participating member in class. I understand that many of you may be introverted. Contributing to our classroom community goes beyond asking questions out loud. Instead, drive discussion while in small groups (when I ask you to discuss a problem or thought in tables) and help classmates with concepts you may be strong in.
3. **Initiative:** You take the first step. When you need help, ask. When you are going to be gone, let me know. In general, what you get out of this class is going to be heavily dependent on how much you choose to engage.

Midterms and Final

Midterm exams will be closed-note and closed-book. I will permit one note-sheet (standard printer paper size) on the final exam. Exams will consist of a mix of multiple-choice questions and free-response. You may bring a calculator. Your phone, tablet, or computer cannot be used as a calculator.

If you have a scheduling conflict with one of the exams, let me know as soon as possible so that we can find an alternative time. If no reasonable alternative time is possible, then I will move all the weight from your midterm exam into your final exam. Note: you must talk to me *before* the originally scheduled exam.

Course Policies

Academic Integrity and Honesty

This class follows the binding [Code for Academic Integrity at Hope College](#). The graded work you do in this class must be your own. In the case where you collaborate with other students,

make sure to fairly attribute their contribution to your project.

Generative AI

Generative AI (ChatGPT, Claude, Gemini, etc.) has become a fact of life. It is impossible for me to prevent you from using AI on your homework assignments, and doing so would deprive you of opportunities to learn how to use cutting edge technology. For the most part, these tools are very good at principles of macroeconomics and you can learn a great deal from them. Feel free to use AI on your homework assignments or for studying.

However, AI can become an intellectual crutch rather than an assistant – a [recent study by MIT](#) shows that using AI may come at significant cognitive costs. To discourage using AI as a crutch, 90% of your grade is dependent on your professionalism and in-class performance on exams.

Electronics

Please do not use electronics during class. The only exception is for those that take notes on a tablet (not a computer). Violations of this electronics policy will result in deductions from the professionalism grade.

Grade Disputes

If you wish to dispute a grade on an exam or on the presentation, you must do so in writing within three days of the grade being posted. Please keep these requests short and to the point.

Disclaimer

This syllabus is subject to change. Any updates will be communicated via email and/or Moodle.

Hope College Policies and Resources

Academic Assistance

The Academic Success Center (ASC) offers all students various free services (e.g. tutoring, testing strategies, time management resources). The [ASC](#) is located in Van Zoeren Hall–immediately adjacent to the Van Wylen Library second-floor entrance. To contact the ASC send an email to asc@hope.edu or call 616-395-7830.

Accommodations

If you are in need of accommodations for a disability, make sure you have connected with [Disability and Accessibility Resources](#) first. Then please let me know how I can help.

Attendance Policy

Hope College has an [excessive absence policy](#). I am required to report excessive absences (more than 1/3 of the semester's classes) to the college's CARE team.

Inclement Weather

Campus Safety sends emergency notification texts, including notices of weather-related closures, via the HOPE ALERT system. A decision to close campus offices and cancel classes is typically announced before 6:30am. More information regarding [inclement weather notifications](#) can be found on Campus Safety's webpage.

Safety & Emergency Preparedness

Students should dial 911 from any phone if they or someone else experiences a medical or mental health emergency. Students can also contact Hope College's Campus Safety Office (616-395-7770) in any kind of emergency situation, and Campus Safety will contact the necessary emergency response service. You can learn more about [specific emergency instructions](#) on their webpage.

Student Complaints

Hope College is committed to the appropriate resolution of complaints as efficiently and effectively as possible. Providing a mechanism to hear complaints allows us to improve our services. Students are encouraged to speak directly to other Hope community members to resolve conflict and/or seek an informal resolution of the dispute directly with the other community member(s) whenever possible. Please use this [complaint form](#) when such a resolution is impossible.

Tentative Schedule

Date	Topic	Readings	Assignments
Mon, Aug 31			
Wed, Sep 2	Foundations, Opportunity Cost	Chapters 1, 2	Homework 1
Fri, Sep 4			
Mon, Sep 7			
Wed, Sep 9			
Fri, Sep 11	Supply and Demand	Chapters 3, 4	Homework 2
Mon, Sep 14			
Wed, Sep 16			
Fri, Sep 18	GDP	Chapter 6	
Mon, Sep 21			
Wed, Sep 23	Dr. Neil Silveus	<i>The "Is" and "Ought"</i>	Winants Auditorium @ 2pm
Fri, Sep 25	CPI	Chapter 8	Homework 3
Mon, Sep 28			
Wed, Sep 30	Midterm 1 Review		
Fri, Oct 2	Midterm 1 Exam	In Class	
Mon, Oct 5			Fall Recess
Wed, Oct 7			
Fri, Oct 9	Long-Run Growth, Labor Markets	Chapter 12	Homework 4

Date	Topic	Readings	Assignments
Mon, Oct 12	<i>Slavery & American Prosperity</i>	Schaap Auditorium @ 7pm	(Not Required)
Wed, Oct 14			
Fri, Oct 16			
Mon, Oct 19	Capital and Finance	Chapter 9	Homework 5
Wed, Oct 21			
Fri, Oct 23			
Mon, Oct 26	International Trade and Exchange Rates	Chapter 19	Homework 6
Wed, Oct 28			
Fri, Oct 30			
Mon, Nov 2	Midterm 2 Review	In Class	
Wed, Nov 4	Midterm 2 Exam		
Fri, Nov 6			
Mon, Nov 9	Keynesian Cross <i>Against "Academic Freedom"</i>	Chapter 14A Winants Auditorium @ 7pm	Homework 7 (Not Required)
Wed, Nov 11			
Fri, Nov 13			
Mon, Nov 16	AD-AS Model	Chapters 13, 14	Homework 8
Wed, Nov 18			
Fri, Nov 20			
Mon, Nov 23			
Wed, Nov 25			Thanksgiving
Fri, Nov 27			Thanksgiving
Mon, Nov 30	Fiscal Policy	Chapters 15, 16	Homework 9
Wed, Dec 2			
Fri, Dec 4			
Mon, Dec 7	Monetary Policy	Chapters 17, 18	Homework 10
Wed, Dec 9			
Fri, Dec 11			
TBD	Final Exam Review	TBD pm	Location: TBD
Wed, Dec 16	Final Exam	12:30 - 2:30pm	1:00-1:50 section
Fri, Dec 18	Final Exam	12:30 - 2:30pm	2:00-2:50 section

Shaded rows indicate days with no class.
